Nationwide annual costs due to obesity-related absenteeism

Obesity is a serious chronic condition that continues to have a growing impact on our society, and carries with it a large number of related conditions such as diabetes, hypertension, heart disease, and more. Action must be taken to address this epidemic at all levels — individual, family, community, government, healthcare and insurance. To learn more about the disease of obesity, treatment options, weight bias, and more, please visit the Obesity Action Coalition (OAC) Web site at www.ObesityAction.org.
