

Bariatric Emergencies, hosted by AAMC

Friday, June 22, 2018, 7:30 am – 12:00 pm

Bariatric Surgery CME and ASMBS Maryland Chapter Meeting

4.0 CMEs/CEUs

This 4.0 credit CME program is designed for any health professional caring for the morbidly obese patient, including bariatric surgeons, physicians, nurses, nurse practitioners and dietitians.

The course was developed in collaboration with faculty from the Johns Hopkins Center for Bariatric Surgery to provide an annual in-depth exposure and review of controversial topics in bariatric surgery. This year's faculty and topics analyze areas that may contribute to bariatric emergencies and address effective intervention, management and treatment for best patient outcomes. The bariatric surgeon will benefit greatly from this review and discussion from a panel of expert surgeons.

Learning Objectives:

- ▶ Understand different emergency situations following bariatric surgery including Sleeve Gastrectomy, Gastric Bypass and Adjustable Band.
- ▶ Discuss the role and effectiveness of endoscopy addressing bariatric emergencies.
- ▶ Discuss bariatric emergencies during pregnancy
- ▶ Understand the challenges for anesthesiologists treating morbid obese patients
- ▶ Discuss how to manage malnutrition following bariatric surgery
- ▶ Discuss the role of an accurate psychological assessment prior to surgery

Course Directors:

Alex Gandsas, MD, MBA, FACS
Director, AAMC Weight Loss and Metabolic Surgery Program; Program Director, Surgery Residency Program; Fellowship Director, Bariatric Surgery; President, MSMBS Maryland Chapter
