

Overview

The American Society for Metabolic and Bariatric Surgery (ASMBS) is the largest non-profit medical organization in the nation dedicated to metabolic and bariatric surgery. Founded in 1983, the ASMBS seeks to improve the public health and well-being by lessening the burden of the disease of obesity and obesity-related diseases throughout the world. The ASMBS has more than 4,000 members including surgeons and integrated healthcare professionals practicing in the field of metabolic and bariatric surgery.

ASMBS Mission

The mission of the ASMBS is to advance the art and science of metabolic and bariatric surgery by continually improving the quality and safety of care and treatment of people with obesity and related diseases by:

- Improving the care and treatment of people suffering from obesity
- Advancing the science and understanding of metabolic and bariatric surgery
- Fostering communication between health professionals on obesity and obesity-related diseases
- Being the recognized authority and resource on metabolic and bariatric surgery
- Advocating for policies that ensure patient access to high quality prevention and treatment of obesity
- Serving the educational and professional needs of the society's diverse membership
