

Please complete the fields for abstract submission then upload any tables, pictures or videos. You will then be directed to complete author information.

Abstracts will be eligible for the following categories:

- Oral Presentations
- Integrated Health (IH) Presentations
- Behavioral Health Presentations
- Presidential Grand Round (Oral Quick Shot) Presentations
- E-Poster Presentations
- Video presentations

**2024 Theme: The Butterfly Effect:**

Bariatric surgery is perhaps the most quintessential butterfly effect in medicine. A patient's transformation extends far beyond mere pounds lost, and can be impactful for multiple different organ systems. The 40th Annual ASMBS Meeting will teach our learners the most current data about the substantial benefits of weight loss surgery and then become your own butterfly effect by disseminating this knowledge to patients, colleagues, insurers, and others worldwide.

**FINANCIAL DISCLOSURES REQUIRED BY ALL AUTHORS (COI):** You are encouraged to begin your abstract submission process early, as financial disclosures for all authors are to be submitted by the **January 4th, 2024** deadline. The abstract submission site will be available for accessing your submissions through the deadline of **January 4th, 2024**.

- The abstract submitter holds the final responsibility of ensuring all authors submit financial disclosures.
- **Disclosure Rule:** Co-author disclosures MUST be completed no later than **January 4th, 2024**. Acceptance notifications will be rescinded for all abstracts with incomplete disclosure information.

## ASMBS ABSTRACT SUBMISSION GUIDELINES:

1. Abstracts must be original work.
2. No authors may be added or deleted after the abstract submission deadline.
3. Word Count = 250 words. You may copy-paste from Word, and the entire abstract body will be entered as a single field.
4. At the time of abstract submission, you will be required to develop and submit ONE self-assessment test question for Maintenance of Certification. This must include the rationale for the right answer.
5. Submitted abstract titles must **NOT contain trade names**.
6. Use first person language: Authors should not use "obese" as an adjective or noun to describe an individual person or group of people, but instead use terms such as "people with obesity" and "populations with obesity."
7. All authors must disclose ALL financial relationships. Abstracts will not be considered if this is not completed by the deadline.
8. If you submit an abstract to ASMBS, you must not submit to another conference until you have received a response. Likewise, an abstract you are submitting to ASMBS must not have already been submitted to another conference.
9. Abstracts are not to have been presented at any other prior major meeting or event. If an accepted abstract is presented nationally, or is published, prior to the ASMBS 2024 Annual Meeting, it will be disqualified and the author will be banned from submission for the next three years.
10. If the author fails to show for a presentation of an accepted abstract, that presenting author will be banned from submission for the next two years.
11. The ASMBS has developed guidelines for the standardization of reporting bariatric surgery outcomes in literature. These are intended to provide consistency within the field of metabolic and bariatric surgery and a uniform method of communicating our findings throughout the medical literature. Please follow these standards as you develop your abstract and/or manuscript:

## VIDEO ABSTRACT SUBMISSION GUIDELINES:

1. Video submissions require submission of an abstract.
2. Videos must follow the ASMBS standardized video format:
  - a. Video title
  - b. Disclosure
  - c. Clinical presentation & indication of surgery
  - d. Preoperative images/ endoscopy
  - e. Operative procedure with emphasis on: trocar placement, dissection, and resection and reconstruction.
  - f. Postoperative images, course and 30 days outcome.
  - g. Conclusion
  - h. Videos must not exceed 7 minutes in length.
  - i. Videos must include verbal narration. Narration must use generic terms and no use of commercial/proprietary names is allowed.
  - j. No background music
  - k. Videos cannot contain any evidence of commercial support.
3. If you submit a video to ASMBS, you must not submit to another conference until you have received a response.
4. Videos are not to have been presented at any other prior major meeting or event. If an accepted video is presented nationally, or is published, prior to the ASMBS 2024 Annual Meeting, it will be disqualified, and the author will be banned from submission for the next three years.
5. If a video is accepted for podium presentation, the authors give ASMBS the rights to publish the video in the ASMBS Video Library. This will be done after the annual meeting. If videos are submitted to the ASMBS Video Library prior to the annual meeting for which they were accepted, they are automatically excluded for video presentation at that year's annual meeting. If the author fails to show for a presentation of an accepted video, that author will be banned from submission for the next two years.
6. If the video is accepted, the authors agree to include their video in the ASMBS Video Library.

## POLICY ON MANUSCRIPT SUBMISSION:

1. All abstracts accepted for the Top Papers session, and all abstracts submitted by trainees for consideration for the John Halverson Young Investigator Award, require a manuscript submission to Surgery for Obesity and Related Diseases (SOARD), the official journal of the ASMBS.

**Deadline for manuscript submission:** *April 1, 2024 (This date is subject to change, please check for updates)*

PLEASE NOTE: If the deadline for manuscript submission is not met, ALL authors will be prohibited from presenting at the ASMBS Annual Meeting for TWO YEARS. During the submission process, you will be required to attest to the following:

- As a presenter of this paper, either selected for presentation in the Top Ten Papers session or submitted for consideration for the Halverson award, I acknowledge that I am required to submit full manuscript to the Journal, Surgery for Obesity and Related Diseases (SOARD), by *April 1, 2024*.
2. If applicable, information regarding where a clinical trial was registered (National Institutes of Health website or one of the equivalent web sites) will be stated in both the Cover Letter and the Materials and Methods section of the abstract manuscript.
  3. If a Top Paper Manuscript is not submitted per the guidelines above, the author will be banned from submission for the next THREE YEARS.
  4. If an abstract was not submitted for consideration for Halverson award or not accepted for the Top Papers Session, manuscript submission to SOARD is encouraged, but is optional.

## MANUSCRIPT SUBMISSION EXEMPTION\*

Presenters of either a paper in the Top Papers session or one submitted for consideration for the Halverson award, who feel their manuscripts should be exempted from submission to SOARD, are provided the opportunity to request an exemption IN ADVANCE. This exemption will require approval by the ASMBS Program Committee.

You must list the name of the Journal to whom you plan to submit your manuscript when requesting the exemption.

If the exemption is approved, it will be with the stipulation that your manuscript is accepted by *April 1, 2024*, in a broad-based, higher impact medical/non-surgical journal (e.g. NEJM, JAMA, Lancet, Diabetes or Diabetes Care) and NOT another surgical journal (e.g. Annals of Surgery). If an exemption is not approved, you will be required to submit your manuscript by *April 1, 2024*.

If you request a manuscript exemption, you will be asked to attest to the following: “I am requesting the option of an exemption from submitting my manuscript to SOARD because I believe this study would be more appropriate in a higher impact, non-surgical journal or one non-surgical journal with a broader impact on the medical community than if it were published in SOARD”.

#### IMPORTANT PUBLISHING REQUIREMENTS: MANDATORY CLINICAL TRIAL REGISTRATION:

All clinical trials must be registered in the National Institutes of Health website: [www.clinicaltrials.gov](http://www.clinicaltrials.gov) or one of the equivalent web sites such as: [www.anzctr.org.au](http://www.anzctr.org.au); [www.isrctn.org](http://www.isrctn.org); [www.trialregister.nl/trialreg/index.asp](http://www.trialregister.nl/trialreg/index.asp); [www.umin.ac.jp/ctr/](http://www.umin.ac.jp/ctr/). This information must be stated in both the Cover Letter and the Materials and Methods section of the manuscript.

As of January 1, 2010, articles which enter a patient into any prospective clinical trial, randomized or not, but not including retrospective reviews, will automatically be rejected if this requirement has not been met.

For assistance, please contact ASMBS Staff at [abstracts@asmbs.org](mailto:abstracts@asmbs.org).

## AWARD OPPORTUNITIES

John Halverson Young Investigator Award: The recipient of this award demonstrates excellence in bariatric surgery research, presentation of their findings and fielding of questions during the presentation. The recipient is awarded a monetary gift and a plaque of recognition.

- Eligibility requirements: First author must be a Medical Student, Resident or Fellow AND must be the first author on the paper.
- Only the highest-scoring abstracts submitted by a student, resident or fellow will be included in on-site review and scoring for selection of the winner.
- Accepted abstracts for the Halverson Young Investigator Award MUST submit a completed manuscript to Surgery for Obesity and Related Diseases (SOARD) by *April 1, 2024*, or they will not be eligible for the award.

Other Abstract Award(s):

- Integrated Health Research Award
