For ASMBS Promotions

We'll be taking photos at the 40th ASMBS Annual Meeting for social media and future promotions. We select photos carefully, but if you'd prefer not to be included, let us know at info@asmbs.org.

Video & Audio Recording Policy

For Educational Sessions

The 40th ASMBS Annual Meeting prohibits unauthorized video recording and live streaming of educational sessions. This includes, but is not limited to, popular platforms like YouTube Live, Twitch, TikTok Live, and social media live features (Facebook Live, Instagram Live, etc.).

MESSAGE FROM THE PRESIDENT

Dear Attendees,

Welcome to the ASMBS 2024 Annual Meeting in beautiful San Diego!

We are thrilled to celebrate the 40th ASMBS Annual Meeting, themed "The MBS Butterfly Effect: A Patient's Transformation and Its Impact on Multiple Organ Systems." Metabolic and bariatric surgery is perhaps the quintessential butterfly effect in medicine where small changes lead to profound transformations. Thank you for committing to advancing your skills as we collectively meet this week to advance, collaborate, and transform as professionals in the field of metabolic and bariatric surgery.

We hope you enjoy the enriching multi-track schedule filled with pre-conference courses, cutting-edge presentations, hands-on skills labs, and invaluable insights from keynote speakers and industry pioneers. This event serves as a unique opportunity for networking, sharing best practices, and discovering new resources and ideas to boost productivity and innovation in your practice. By engaging in breakout sessions and interacting with industry professionals, you'll gain specialized skills and knowledge that can be immediately applied to your organization.

We look forward to your participation in this milestone event, where we'll celebrate the past, present, and future of metabolic and bariatric surgery. Let's celebrate our 40th annual meeting year of ASMBS's dedication to improving patient care and advancing our field. Thank you for being a part of this transformative journey.

Sincerely,

Dr. Marina Kurian
President, ASMBS (2023-2024) and the ASMBS Board of Directors

MEETING THEME

This year, the ASMBS celebrates not just four decades of annual meetings, but also the profound impact of metabolic and bariatric surgery (MBS) on patients' lives. We've chosen the theme "The MBS Butterfly Effect: A Patient's Transformation and Its Impact on Multiple Organ Systems" to reflect the ripple effect this surgery can have on a person's overall health and well-being.

Just like the butterfly whose wingbeat can influence weather patterns across continents, MBS can trigger a cascade of positive changes. Weight loss surgery isn't just about achieving a new number on the scale; it's about empowering patients to experience a domino effect of improvements throughout their bodies. From regulating blood sugar and reducing joint pain to improving sleep quality and boosting mental health, the benefits of MBS extend far beyond the initial weight loss.

The 40th ASMBS Annual Meeting will delve into this exciting theme. Through presentations, workshops, and discussions, we'll explore the latest research on how MBS impacts various organ systems and share best practices for optimizing patient care throughout the entire MBS journey.

THE MBS BUTTERFLY EFFECT

A PATIENT'S JOURNEY THROUGH TRANSFORMATION

Claiming CME/CE Credits

Evaluations will be available to complete after each session. Please keep an eye on your email inbox for further instructions. You will receive a unique-to-you link to claim CME/CE credits.

NOTE: If you have questions regarding claiming credits, please contact the ASMBS office via email education@asmbs.org.

CME Accreditation Statement

The American Society for Metabolic and Bariatric Surgery is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American Society for Metabolic and Bariatric Surgery designates this educational activity for a maximum of 30.25 AMA PRA Category 1 Credit™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
